The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

MARYLAND.

CAPITAL, ANNAPOLIS.

Population of State, 1,190,050.

(U. S. Census of 1900.)

Number of Physicians, 2,152.

Maryland is situated between the parallels of 37° 53', and 39° 44', north latitude, and the meridians of 75° 04', and 79° 33' west longitude (the exact western boundary being yet undetermined), and is one of the upper tiers of Southern States. It is bounded on the north by Pennsylvania, on the south and west by Virginia, West Virginia and the District of Columbia, and on the east by the Atlantic ocean and Delaware. Its gross area is 12,210 square miles, of which 9,869 square miles are land surface; the included portion of the Chesapeake Bay 1,203

The JOHNS HOPKINS UNIVERSITY

MEDICAL DEPARTMENT.

The Medical Department is an integral part of The Johns Hopkins University and in close affiliation with The Johns Hopkins Hospital.

Conditions of Admission. As candidates for the degree of Doctor of Medicine the School receives only graduates of approved colleges or scientific schools who can furnish evidence that they are acquainted with Latin and have a reading knowledge of French and German, and that they have such knowledge of physics, chemistry and biology as is imparted by the regular minor courses given in these subjects in The Johns Hopkins University. The phrase "a minor course" means a collegiate course that requires a year for its completion. In physics, four class-room exercises and three hours a week in the laboratory; in chemistry and biology four class-room exercises and five hours a week in the laboratory in each subject are required.

General Plan of Instruction. The course of instruction occupies four years. The academic year begins October 1st and closes the middle of June, with short recesses at Christmas and Easter. Men and women are admitted upon the same terms. In the methods of instruction, especial emphasis is laid upon practical work in the Laboratories and in the Dispensary and Wards of the Hospital. While the aim of the School is primarily to train practitioners of medicine and surgery, it is recognized that the medical art should rest upon a suitable preliminary education and upon thorough training in the medical sciences. The first two years of the course are devoted mainly to practical work, combined with demonstrations, recitations, and, when deemed necessary, lectures in the Laboratories of Anatomy, Physiology, Physiological Chemistry, Pharmacology and Toxicology, Pathology and Bacteriology. During the last two years the student is given abundant opportunity for the personal study of cases of disease, his time being spent largely in the Hospital Wards and Dispensary, and in the Clinical Laboratories. Especially advantageous for thorough clinical training are the arrangements by which the students, divided into groups, engage in practical work in the Dispensary, and throughout the fourth year serve as clinical clerks and surgical dressers in the wards of the Hospital.

Special Courses for Graduates in Medicine. Special courses for physicians are given annually during May and June, with a preliminary course in Normal Histology and Gross Anatomy during April. These courses are in Pathology, Bacteriology, Clinical Microscopy, Medicine, Surgery, Gynaecology, Obstetrics and the various specialties. They are of a practical character and intended to meet the needs of practitioners of medicine.

Charges for Tuition. The charge for tuition for candidates for the degree of Doctor of Medicine is \$200.00 per annum, payable in semi-annual instalments, October 1 and February 1. There are no extra charges for Matriculation or for the Laboratory courses. The fees for special courses for graduates in medicine can be learned on application to the Dean of the Medical School.

The annual announcement of the Medical Department, including that of Special Courses for Graduates in Medicine will be sent upon application to the

Dean of The Johns Hopkins Medical School,
BALTIMORE, MD.

The . . **Johns Hopkins Hospital, Baltimore, Md.**

The Johns Hopkins Hospital,

Founded by the liberality of Johns Hopkins, a merchant of Baltimore. is a large, general hospital, built in pavilions for the treatment of acute diseases. It is divided into Medical, Surgical Gynæcological and Obstetrical Departments each under the direction of the Physician-in-Chief, the Surgeon-in-Chief, the Gynæcologist-in-Chief, and the Obstetrician-in-Chief, to the Hospital, respectively.

The Hospital receives the following classes of patients:

1. The sick poor of BALTIMORE AND ITS SUBURBS, who are TREATED FREE OF CHARGE.
2. Casualty or accident cases from BALTIMORE OR THE STATE OF MARYLAND, who are also TREATED FREE OF CHARGE.
3. Patients having NO RESIDENCE IN BALTIMORE, who pay board in the PUBLIC WARDS AT \$7 PER WEEK.
4. Pay patients FROM ANY PORTION OF THE UNITED STATES OR CANADA, who are treated in the PRIVATE WARDS AT PRICES VARYING FROM \$20 to \$35 PER WEEK.

The weekly fee for treatment in the private wards is \$10. Where payment is made for surgical and gynæcological operations no weekly fee for treatment is charged.

In the private wards surgical operations, medical attendance and the services of an ophthalmologist, otologist, laryngologist, neurologist, or dermatologist are extra, unless otherwise especially arranged for with the Superintendent. Massage and laundry charges are extra.

The Johns Hopkins Hospital publishes a Bulletin at \$1 per year, and an annual volume of Reports at \$5 per year.

All communications should be addressed to

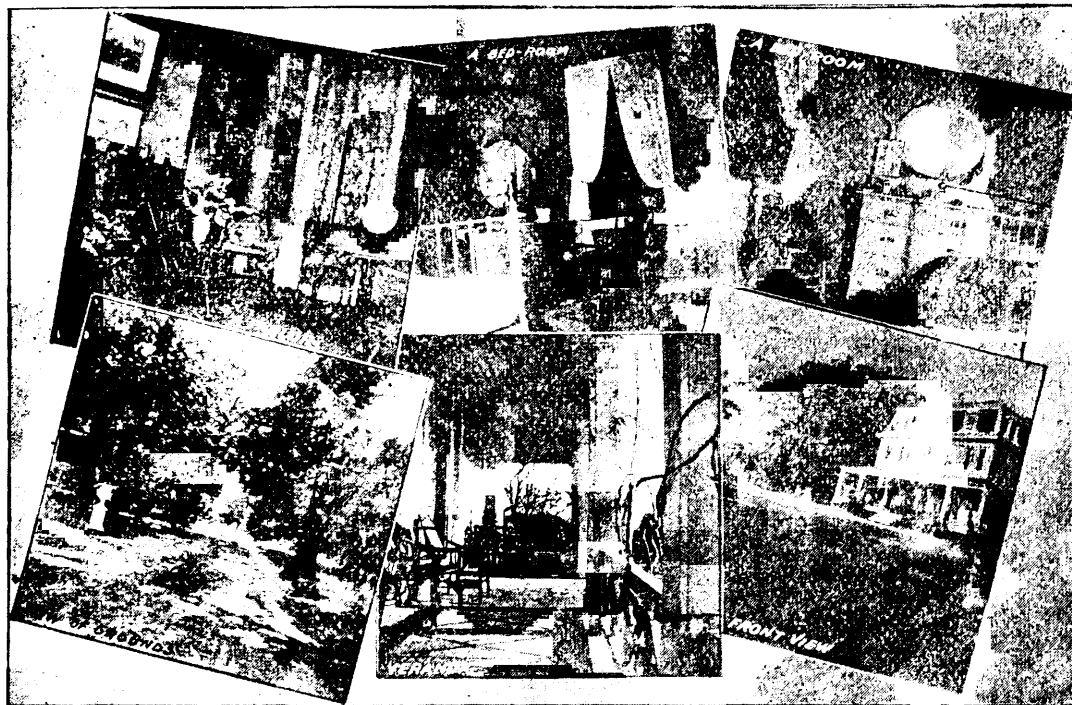

THE SUPERINTENDENT

The Johns Hopkins Hospital,

North Broadway, BALTIMORE, MD.

Established 1891.

The Richard Gundry Home,

CATONSVILLE, Baltimore County, MARYLAND.

For the Treatment of Mental Diseases, Selected Cases of Alcoholic and Opium Habitués, and the various cases of Nervous Diseases requiring removal from the environments of home.

It is also an ideal place for recuperation from exhaustion, due to overwork. Situated on one of the highest elevations in Baltimore County, five hundred feet above the sea level and overlooks the prosperous village of Catonsville, one of the most popular suburbs of Baltimore. The grounds are spacious and beautiful, and abound in walks and drives. For the entertainment and amusement of the patients there are golf links, croquet and tennis courts. The building is situated away from the main roads, and is quiet and secluded, and at the same time easily accessible, being but five minutes walk from the Ellicott City branch of the United Electric Railway. For further information, booklet, etc., address

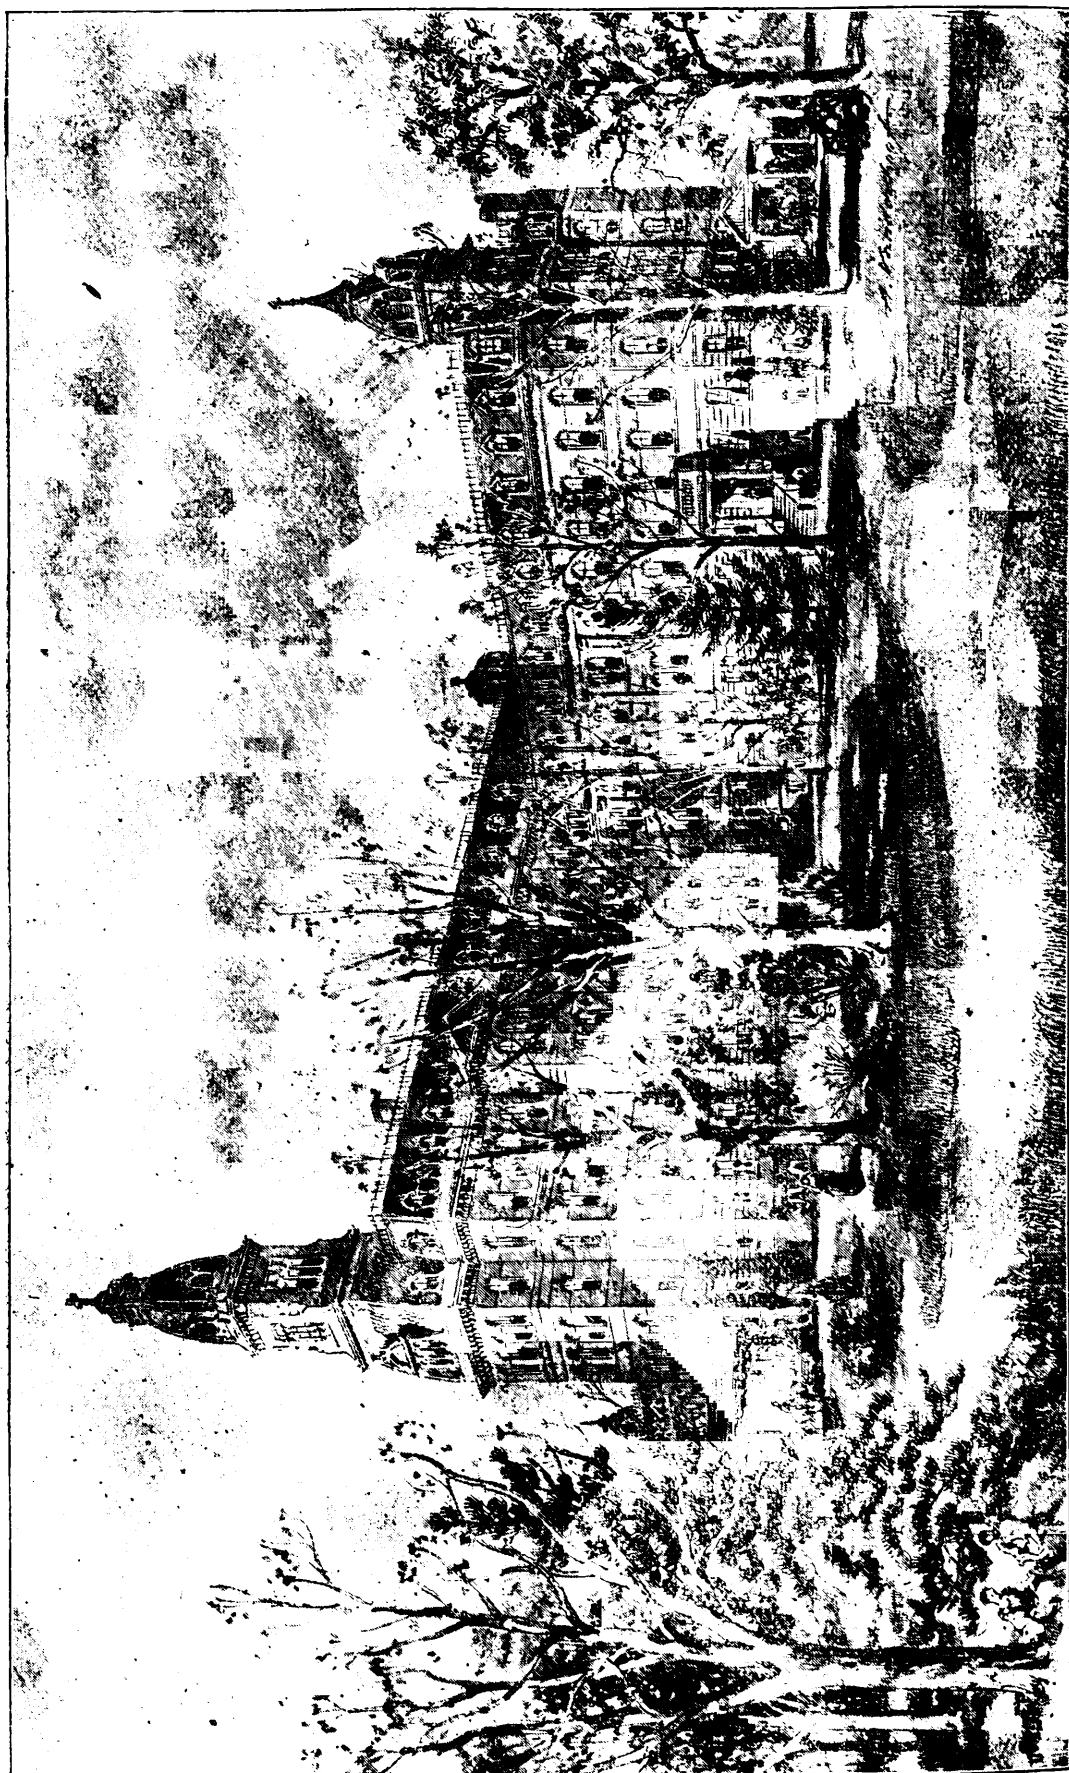

DR. RICHARD F. GUNDRY,

Long Distance Telephone 94 Catonsville.

CATONSVILLE, MD.

FOR ILLUSTRATING THE VARIOUS BRANCHES OF STUDY.

Conducted by the School Sisters of Notre Dame.

Teachers Specialists in every Department. Lectures by Scholars of National Reputation. Courses of Study Regular and Elective.

Music, Art and Physical Culture.

FOR PARTICULARS, SEND FOR CATALOGUE.

The Bulletin of the American Academy of Medicine is of value—

1. **To the Physician of Affairs**, who wishes to be kept informed of the laws regulating the practice of medicine in the various States; of the results of the examinations before the State Medical Examining Boards; of the condition of the medical colleges in the United States.
2. **To the Thoughtful Physician**, who wishes information on the many problems relating to the physician and his environment.
3. **To Advertisers**, who are seeking to reach physicians of these types.
4. Incidentally, **to the Recent Graduate**, who wishes to be informed of the method of procedure to gain the legal right to practice in any State; and to the **intending medical student**, who wishes information about medical schools.

It is the only journal published devoted to medical sociology.

A feature of the Bulletin is that each number is devoted to one subject; thus, the review of all the medical schools, or the medical practice requirements, are annually presented in a single article. This facilitates reference and makes it possible to purchase single copies for special information.

It is published every other month, at an annual subscription of three dollars (in advance); single numbers, 50 cents; sample copy (our selection), 10 cents.

OTHER PUBLICATIONS:

State Requirements for the Practice of Medicine. Price 75 cts.

American Medical Colleges—including the names of the teaching force of each college, with the subjects taught.

Price \$1.00. Sent postpaid on receipt of price.

Draw all checks to the order of the American Academy of Medicine.

Stamps accepted for amounts less than \$1.00.

REGISTER AND DIRECTORY.

Maryland

899

square miles. Assateague Bay on the Atlantic coast 93 square miles, with 1,054 square miles of smaller estuaries and rivers. The Chesapeake Bay ascends to within a few miles of its northern boundary, dividing the State into the eastern and western shores. The rivers, excluding mere estuaries of the bay, are the Potomac, Patuxent, Patapsco, Gunpowder, Susquehanna, Elk, Sassafras, Chester, Choptank, Nanticoke, Wicomico and Pocomoke, all emptying into the Chesapeake Bay. Besides these, the coast line of the bay is deeply indented with a multitude of creeks, coves and other estuaries penetrating the land in all directions, usually bearing the names of rivers and often navigable to some distance by vessels of light draft. Perhaps nowhere else in the world is there a coast line proportionately so extensive or any country offering such facilities for water transportation as tide-water Maryland. Along the ocean frontier runs a narrow reef of sand inclosing and sheltering Synepuxent and Assateague bays, and giving inland navigation along the whole Atlantic coast of the State. Maryland presents a great variety of configuration soil and climate. The four most westerly counties extend through the systems of mountain ranges known as the Allegheny and the Blue Ridge; east of these is the Piedmont region, gently inclining towards tide-water, and on both sides of the bay lies the Coastal Plain. The climate, tempered by the vicinity of the ocean and Chesapeake Bay, is on the whole mild and salubrious. The mean annual temperature of the middle portion of the State is 56°, of the northern 54°, and of the highest portions in the west about 50°. The rainfall is abundant throughout the State, and is largest on the western coast of Chesapeake Bay, where it averages about 50 inches.

The following table shows the increase in the population since 1850:

1850.....	583,034	1880... ..	934,943
1860.....	687,049	1890.	1,042,390
1870.....	780,894	1900.....	1,190,050

SYNOPSIS OF MEDICAL LAWS.

There are two Boards of Medical Examiners in Maryland, one representing the Medical and Chirurgical Faculty of Maryland and the other the State Homoeopathic Medical Society. The law as last amended provides:

Physicians and surgeons of good moral and professional standing who shall hereafter come into this state with the intent to follow the practice of medicine and surgery, graduates of a medical college or university of good standing or having a certificate or license from a board of medical examiners of any state where the requirements for practice are equal to those required by the Board named in this article, may make application to the president of either Board of Medical Examiners of this State, which application shall be made under oath and shall state when and how long the applicant has been engaged in the practice of medicine and surgery and from what medical college, university or other institution of learning he or she graduated. The Board of Medical Examiners shall have the authority and discretion to require the applicant to undergo an examination, or may require said applicant to submit to a special examination, the terms and methods of which shall be prescribed by the Board of Medical Examiners and upon paying the fee for examination. After the examination and determination of the Board that such applicant is qualified to practice medicine and surgery and entitled to a license, a license shall be issued, which shall be filed and recorded, and it shall be then the duty of the clerk and of the court to register the name of the person so licensed as physician or surgeon, or both, in accordance with the provisions of the act."

The term "practicing medicine or a practitioner of medicine," when used with respect to the qualification of a practitioner or applicant to be registered under this article, shall be construed to mean the practice of medicine as a profession or means of livelihood and by one duly licensed or registered. It shall be the duty of the secretary of either or both of said state boards of medical examiners to inquire into all violations of law under this article and to institute all proceedings or prosecutions, and all expenses incurred by any secretary of either of such boards shall be allowed and paid out of the funds acquired by or belonging to said boards. Section 41 requires a diploma from a school in which attendance on three annual courses of lectures is necessary for graduation. Examinations are written and cover the subjects of anatomy, physiology, chemistry, surgery, practice of medicine, materia medica and therapeutics, obstetrics, gynecology, pathology, medical jurisprudence and hygiene. Section 44 provides:

"That all examinations shall be conducted in such manner that the name, school of graduation and preparatory training of said applicant shall not be made know to the board of examiners until his examination papers have been graded. An applicant receiving a majority of the votes of the board before whom the applicant appears shall be considered to have passed a satisfactory examination and entitled to the license of said board." Fee for examination \$10. License must be recorded with circuit clerk. Fee for recording \$1.

Exception to these statutes are provided for United States surgeons, consultants, those practicing temporarily under a preceptor, midwives and gratuitous service in an emergency.—Journal American Medical Association.

--	--	---

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

---	--	--

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Massachusetts

REGISTER AND DIRECTORY.

Massachusetts

931

MASSACHUSETTS.

CAPITAL, BOSTON.

Population of State, 2,805,346.

(U. S. Census of 1900.)

Number of Physicians, 4,832.

The State of Massachusetts, which was included in the original thirteen, extends from 41 degrees 15 minutes to 42 degrees 55 minutes north latitude and from 69 degrees 56 minutes to 73 degrees 31 minutes west longitude, and comprises an area of 7,800 square miles, or 4,992,000 acres. It is bounded on the north by Vermont and New Hampshire, on the east by the Atlantic Ocean, on the south by Rhode Island and Connecticut, and on the west by the State of New York.

The climate is cool and salubrious, the winters being severe and long and the summers warm but short. The mean annual temperature as observed at New Bedford during a period of 58 years is 48.56 degrees, that of the summer 66.95 degrees, and of the winter 30.21 degrees. The average annual rainfall is about 45 inches.

The following table shows increase in population for 70 years:

1830.....	610,408	1870.....	1,457,351
1840.....	737,699	1880.....	1,783,085
1850.....	994,514	1890.....	2,238,943
1860.....	1,231,066	1900.....	2,805,346

For list of Medical Colleges, see page 138.

STATE BOARD OF HEALTH.

THE LAW RELATING TO THE REGISTRATION OF PHYSICIANS.

(Revised Laws, January 1, 1902.)

Section 1. There shall be a board of registration in medicine consisting of seven persons, residents of this commonwealth, who shall be graduates of a legally chartered medical college or university having the power to confer degrees in medicine, and who shall have been for ten years actively employed in the practice of their profession. No member of said board shall belong to the faculty of any medical college or university, and no more than three members thereof shall at one time be members of any one chartered state medical society. One member thereof shall annually in June be appointed by the governor, with the advice and consent of the council, for a term of seven years from the first day of July following.

Section 2. Said board shall hold regular meetings on the second Tuesday of March, July and November in each year, and additional meetings at such times and places as it may determine. At the regular meeting in July, it shall organize by the choice of a chairman and secretary who shall hold their offices for the term of one year. The secretary shall give a bond to the treasurer and receiver general in the penal sum of five thousand dollars, with sufficient sureties to be approved by the governor and council, for the faithful performance of his official duties.

Section 3. Applications for registration shall be made upon blanks to be furnished by the board, and shall be signed and sworn to by the applicants. Each applicant for registration shall furnish satisfactory proof that he is twenty-one years of age or over and of good moral character and upon payment of a fee of twenty dollars, shall be examined by said board. If he be found by four or more members thereof to be 21 years of age or over, and of good moral character, and qualified, he shall be registered as a qualified physician and shall receive a certificate thereof signed by the chairman and secretary. An applicant who fails to pass an examination satisfactory to the board, and therefore refused registration, shall be entitled within one year after such refusal to a re-examination at a meeting of the board called for the examination of applicants, without the payment of an additional fee; but two such re-examinations shall exhaust his privilege under his

original application. Said board, after hearing, may by unanimous vote revoke any certificate issued by it and cancel the registration of any physician who has been convicted of a felony or of any crime in the practice of his profession. All fees received by the board shall, once a month, be paid by its secretary into the treasury of the Commonwealth.

Section 4. Each member of the board shall receive ten dollars for every day actually spent in the performance of his duties, and the necessary traveling expenses actually expended in attending the meetings of the board, not exceeding three cents a mile each way. Such compensation and the incidental and traveling expenses shall be approved by the board and paid by the Commonwealth only from the fees paid over by the board.

Section 5. The board shall keep a record of the names of all persons registered hereunder, and of all money received and disbursed by it, and a duplicate thereof shall be open to inspection in the office of the secretary of the commonwealth. Said board shall annually, on or before the first day of January, make a report to the governor of the condition of medicine and surgery in this commonwealth, of all its official acts during the preceding year and of its receipts and disbursements.

Section 6. The board shall investigate all complaints of the violation of the provisions of section eight, and report the same to the proper prosecuting officers.

Section 7. Examinations shall be wholly or in part in writing in the English language, and shall be of a scientific and practical character. They shall include the subjects of anatomy, surgery, physiology, pathology, obstetrics, gynecology, practice of medicine and hygiene, and shall be sufficiently thorough to test the applicant's fitness to practice medicine.

Section 8. Whoever, not being lawfully authorized to practice medicine within this Commonwealth and registered as aforesaid, holds himself out as a practitioner of medicine, or practices or attempts to practice medicine in any of its branches, or whoever practices medicine or surgery under a false or assumed name, or under a name other than that by which he is registered, or whoever personates another practitioner of a like or different name, shall, for each offense, be punished by a fine of not less than one hundred nor more than five hundred dollars, or by imprisonment for three months, or by both such fine and imprisonment. In a case in which a provision of this or the preceding section has been violated, the person who committed the violation shall not recover compensation for services rendered.

Section 9. The provisions of the eight preceding sections shall not be held to discriminate against any particular school or system of medicine, to prohibit medical or surgical service in a case of emergency, or to prohibit the domestic administration of family remedies. They shall not apply to a commissioned medical officer of the United States.

UNION GENERAL HOSPITAL,

158 Springfield Street,

BOSTON, - MASS.

Centrally located in the heart of Boston, facing one of the beautiful parks of the city. An institution practically home-like, in which the patients have all the comforts without the annoyances of a public hospital.

Daily visits from friends are permitted, also the attendance of the physician or surgeon of their choice. *All physicians are on equal terms*, and can admit suitable patients on application. All cases are accepted, excluding only contagious diseases and the insane.

There is a special lying-in department, and the hospital is thoroughly equipped for emergent cases. At present we can accommodate over 70 patients.

Correspondence solicited from the medical profession, and it is earnestly desired that they will acquaint themselves with our advantages by personal inspection.

FRANK L. BURT, M. D.,
Surgeon in Charge.

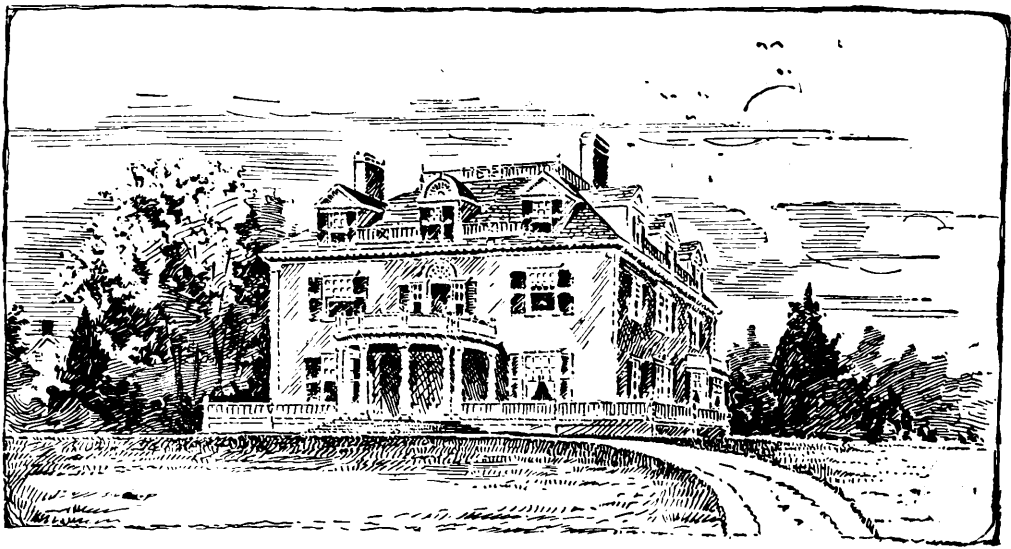

PARSONS' HOME HOSPITAL.

(Formerly Springfield Sanatorium.)

Situated on one of the highest points in the City of Springfield, Mass., offers a quiet home-like place, where the sick may receive all the care and advantages of a hospital, free from the disagreeable features of a public institution. Physicians and surgeons will here find commodious, sunny rooms, and fully equipped operating room, where they will have the exclusive care of their patients. Trained nurses and masseuse in attendance. Terms, \$15.00 to \$25.00 per week, according to location of room and attendance required. For further information address,

MISS J. A. PARSONS,
25 Thompson Street, SPRINGFIELD, MASS.

THE LATEST OF THREE NERVINE BUILDINGS.

**THE NEWTON NERVINE, AND
THE NEWTON SANATORIUM.**

Nine miles west of Boston. Three houses. Ten acres. Baths. Massage.
Electricity. Rest Treatment. Skilled Nurses. Established ten years.
Violently insane not received. Circular sent on application.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

ESTABLISHED 1889.

INCORPORATED 1900.

Boothby Surgical Hospital,

1 and 3 Worcester Sq., BOSTON.

OPPOSITE A PLEASANT PARK.

PRIVILEGES OF THE
HOSPITAL
Cordially Extended
to the
PROFESSION.

Centrally Located.

Quiet, Sunny,
Homelike.

Thoroughly Equipped.

TEL. TREMONT 456.

SPECIAL FACILITIES for EMERGENCY OPERATIONS DAY or NIGHT

The skillful after treatment and nursing so necessary for the successful issue of surgical cases is given our most careful attention.

Another feature is a separate wing for non-contagious medical cases.

From our graduate and training school exceptionally competent nurses may be obtained at a moment's notice.

The above are but a few of the advantages offered by our institution.

ALONZO BOOTHBY, M. D., President.

GRAND VIEW SANITARIUM. { South Windham, Conn.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

RECTAL DISEASES.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

---	---	--

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

---	--	---

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

--	--	--

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

---	--	---

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Premier Mineral Baths, BENTON HARBOR, MICH. Saline=Sulphur.

Physicians are requested to address Manager H. R. SMITH.
Waters especially recommended for gout and all forms of rheumatism.

---	--	---

MICHIGAN,

CAPITAL, LANSING.

Population of State, 2,420,982.

(U. S. Census of 1900.)

Number of Physicians, 4,250.

Michigan, originally a portion of the famous "Northwest Territory," was admitted into the Federal Union January 26, 1837. It is located on the British-American frontier and is separated from the Dominion of Canada by Lakes Superior, Huron and St. Clair, and their connecting straits. It extends, approximately, from latitude 41.7 degrees to 47.48 degrees; and from longitude 82.41 degrees to 90.54 degrees, and covers an area of 56,451 square miles. It is divided into two parts—the Lower and Upper Peninsulas—which are separated by the Straits of Mackinac and contiguous waters. Although united politically these two divisions are thus disjointed geographically, and they also differ widely in physical characteristics and resources. The Lower Peninsula is for the most part level and prairie like, or moderately rolling and excellently adapted to agriculture; while the Upper Peninsula is hilly and rugged and even mountainous, and is distinguished principally for its abundant mineral resources. The Lower Peninsula is bounded on the east by Lake Huron, the St. Clair river, Lake St. Clair, the Detroit river and Lake Erie, on the west and northwest by Lake Michigan, on the northeast by Lake Huron, and on the south by Indiana and Ohio. It is 277 miles long from north to south, and its greatest width is 259 miles. It has an area of 33,871

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

RECTAL DISEASES.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.
(SEE PAGE 8.)

square miles, or 21,677,184 acres. The Upper Peninsula is 318 miles long, east and west; and its greatest breadth is 165 miles; with an area of 22,580 square miles, or 14,451,456 acres. It is bounded on the north by Lake Superior, on the south by Lakes Michigan and Huron, on the southwest by the State of Wisconsin, and on the east by the St. Mary's river. These great waters give the State a shore line of 1,620 miles, and being at the head of lake navigation, where the products of the west aim to reach water transportation to the seaboard, they have contributed immensely to the State's commercial prominence and prosperity.

The climate is mild, but the temperature varies considerably, the mean annual temperature as observed at Fort Mackinac being 41.02 degrees and at Detroit 47.25 degrees. The average annual rainfall varies from 23 inches at Mackinac to 30 at Detroit.

The following table shows increase in population since 1810:

1810.... ..	4,762	1860... ..	749,113
1820.....	8,765	1870.. ..	1,184,059
1830.....	31,639	1880. ..	1,636,937
1840.....	212,267	1890... ..	2,093,889
1850.....	397,654	1900.	2,420,982

The total number of deaths returned from registration districts, which includes nearly the total population of the State, was 33,777 in 1900, and the death rate 13.9 per thousand population.

For list of Medical Colleges, see page 138.

SYNOPSIS OF MICHIGAN MEDICAL LAWS.

The board of registration in medicine, including five regulars, two homœopaths, t
eclectics and one physio-medical, is appointed by the governor on recommendation of
respective state societies. Applications for registration and examination are receiv
when made upon blanks furnished by the board and signed and sworn to by the applica
The law is mandatory that all must be examined, except graduates of approved and des
nated colleges, a list of which is furnished the applicant. Therefore, certificates of reg
tration by other state boards, or diplomas of graduation from colleges not listed, c
not be received in lieu of an examination. No special dates other than the regular me
ings of the board are assigned for examinations, viz., the second Tuesdays in June a
October of each year, at Lansing. Until further notice, applicants under examination w
be given ten questions each of the following subects, viz., anatomy, chemistry, bacteri
ogy, histology, pathology, physiology, practice of medicine, surgery, obstetrics, gynec
cology, hygiene and public health laws of Michigan, medical jurisprudence, toxicology,
diseases of the eye and ear, therapeutics, mental and nervous diseases, minor surgery
surgical pathology, surgical anatomy. Registration is refused when the average thus c
tained in less than 75 per cent. Persons refused registration by failure to pass an exa
ination satisfactorily, may be re-examined at any regular meeting of the board. The f
for examination is \$10, which must accompany the application.

Application for an examination or re-examination at any regular meeting of the boar
should be made at least two weeks before the date of the same, to the secretary. Ce
tificates of registration or a certified copy must be filed with county clerk.

The law does not apply to government officials in their regular duties, outside co
sultants, temporary assistance in cases of emergency, domestic administration of fam
medicines, nor to any legally qualified osteopath engaged in the practice of osteopat
under the provisions of act number 78 of the public acts of the State of Michigan of 18
regulating and licensing the practice of osteopathy in the state.

"Section 9. When any person shall append the letters M. B. or M. D., or prefix th
title "Dr." or "Doctor," or any other sign or appellation in a medical sense to his nam
it shall be prima facie evidence of practicing medicine and surgery within the meaning
this act."—Journal American Medical Association.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted,

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Premier Mineral Baths, BENTON HARBOR, MICH. *Saline-Sulphur Water.*

Dr. H. F. James, of St. Louis, writes: "Improvement was fifty per cent. more rapid from your waters than from those of other baths where I had spent several weeks before coming to Benton Harbor."

RECTAL DISEASES.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PATTERSON HOME SANITARIUM.

SPECIALTY:

MORPHINE, LIQUOR AND ALL DRUG ADDICTIONS.

Physicians are respectfully invited to investigate the Patterson System of Treatment, used in this Sanitarium for the cure of Drug and Liquor addictions. The Sanitarium is ever open to investigators, and patients are ever in evidence to show beyond a doubt that the morphine habit can be cured without sickness, suffering or danger. Liquor patients are only detained at the Home one or two weeks, when they can return to their own homes and take medicine with them to complete the cure. Sanitarium is provided with all modern improvements, steam heat, electric lights, etc. Also provided with a fine static machine, which is proving of great benefit in the treatment of nerve diseases. Full particulars of plan of treatment will be given by addressing

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Dear Doctor:--What would you prescribe for my case?

See page 14.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

*Dear Doctor:-- What would you prescribe for
my case? See page 14.*

MINNESOTA.

CAPITAL, ST. PAUL.

Population of State, 1,751,394.

(U. S. Census of 1900.)

Number of Physicians, 1,862.

Minnesota derives its name from the river which was named "Minisota" by the Dakotas, pronounced "Min-nee-sotah," applied to the stream, in its natural state in the summer season, after the waters were cleared from the roiling caused by the spring floods. Mini, water; sotah, sky-colored. Apparently, to secure the correct pronunciation in English letters, the convention called at Stillwater, in 1848, for the purpose of procuring a territorial organization, instructed their delegates to see that the name of the Territory should be written Min-ne-so-ta.

Geographically, Minnesota occupies the exact center of the continent of North America, midway between the Atlantic and Pacific oceans, and also midway between Hudson Bay and the Gulf of Mexico. This State is bounded on the south by Iowa, on the west by South and North Dakota, on the north by Manitoba and Ontario, and on the east by Wisconsin. It extends from latitude 43 degrees 30 minutes to 49 degrees 24 minutes, and from 89 degrees 29 minutes to 97 degrees 15 minutes west longitude. From its southern boundary to the northern is about 400 miles, and from its most eastern to the extreme western point about 354 miles.

Minnesota is, in area, the tenth State of the Union. It contains 84,287 square miles, or about 53,943,379 acres, of which 3,608,012 acres are water. In altitude it appears to be one of the highest portions of the continent, as the headwaters of three great river systems are found in its limits, those of streams flowing northward to Hudson Bay, eastward to the Atlantic ocean, and southward to the Gulf of Mexico.

About half of this surface, on the south and west, consists of rolling prairie, interspersed with frequent groves, oak openings and belts of hardwood timber, watered by numberless lakes and streams, and covered with a warm, dark soil of great fertility. The rest, embracing the elevated district immediately west and north of Lake Superior, consists mainly of rich mineral ranges and of the pine forests which clothe the headwaters of the Mississippi, affording very extensive supplies of lumber. There is but a very small percentage of broken, rocky or worthless land in the State. Nearly all is arable.

Surveys with leveling from the sea show that the shore of Lake Superior is the lowest land in the State, 602 feet above sea level. The waters of the northeastern part of the State south of the Mesabi iron range flow into Lake Superior, and are carried to the Atlantic ocean. The Mississippi river, having its chief source in Lake Itasca, at 1,466 feet elevation, runs in a southerly direction, leaving the State at 620 feet above sea level.

The Red River of the North, rising in the north, near Itasca Lake, at a height of 1,600 feet above the ocean, after a circuitous route south and west to Breckenridge, in Wilkin county, and then flowing north along its great valley, leaves the State at an elevation of 750 feet. The average elevation of the State is given at about 1,275 feet. The highest elevation is the Misquah hills, in Cook county, 2,230 feet.

The elevation of Minnesota above the sea, its fine drainage, and the dryness of the atmosphere, gives it a climate of unusual salubrity and pleasantness. It has an annual mean temperature of 44 degrees, while its mean summer temperature is 70 degrees, the same as that of Middle Illinois and Ohio, southern Pennsylvania, etc. The excessive heats of summer often felt in other States are here tempered by the cooling breezes. Its high latitude gives it correspondingly longer

POLK'S MEDICAL

Minnesota

days in summer than States further south, and during the growing season there are two and one-half hours more sunshine than in the latitude of Cincinnati. This, taken in connection with the abundant rainfall of early summer, accounts for the rapid and vigorous growth of crops in Minnesota, and their early maturity. The cool breezes and cool nights in summer prevent the debilitating effects of heat on the system often felt in low latitudes. The winter climate is one of the attractive features of the State. Its uniformity, and prevailing freedom from thaws and excessive spells of cold, severe weather or heavy snow storms, and its dryness, together with the bright sunshine and electrical condition of the air, all tend to enhance the personal comfort of the resident, and make outdoor life and labor a pleasure.

The following table shows the increase in population for 50 years:

1850.	6,077	1880.	780,773
1860.	172,023	1890.	1,301,826
1870.	439,706	1900.	1,751,394

For list of Medical Colleges, see page 138.

STATE BOARD OF HEALTH.

White Mineral Springs—Properties of water, Alkaline-Calcic. Postoffice, Minnesota City.

SYNOPSIS OF MEDICAL LAWS RELATIVE TO REGISTRATION.

Section 1 provides for the appointment by the Governor of a State Board of Medical Examiners composed of nine members.

An examination is required of each and every one before a license is granted to practice medicine in Minnesota. The law requiring such procedure went into effect July 1st, 1887, and has been enforced since that date.

Each applicant is required to make an affidavit setting forth his age, place of residence, time and place of each course of lectures, and date of graduation. If the applicant is a graduate in medicine, his affidavit must be corroborated by the exhibition of his diploma or a certificate from the Dean of the Medical College showing that he is a graduate. Applicants who are non-graduates are required to corroborate their affidavits by exhibiting their cards of attendance at lectures or by certificate from the Dean.

Each applicant, if he graduated after January 1st, 1899, or completed his final course of lectures after January 1st, 1899, must show proof that he has attended four full courses of lectures at a recognized medical college, each course covering a period of not less than 26 weeks and no two courses being within the same year.

Each applicant if he graduated after July 1st, 1887, and prior to January 1st, 1899, or completed his final course of lectures during that period, must show proof that he has attended three full courses of lectures at a recognized medical college, each course covering a period of not less than 26 weeks, and no two courses being within the same year.

Applicants who graduated at a recognized medical college prior to July 1st, 1887, must show proof of having attended two courses of lectures at a medical college.

After January 1, 1902, applicants for license to practice medicine and surgery in the State of Minnesota must present evidence of having attended four (4) full courses at a medical college recognized by the Minnesota State Board of Medical Examiners, of at least twenty-six (26) weeks each, no two courses being in the same year.

Graduates of medical colleges granting advance standing for work done at other than medical colleges shall not be eligible to the examinations given by this Board.

Provided, that above shall not apply to such students as have been granted advanced standing prior to September, 1901.

A fee of ten dollars must be paid at the beginning of the examination. This fee is not returned in case of failure.

Candidates from all schools shall answer in common all questions submitted except the questions on materia medica which are adapted to the school of practice accepted by the candidate. The answer papers upon subjects peculiar to any one school of medicine are sent to the members of this board who are representatives of such school.

Candidates shall submit to an examination in the following branches, to-wit: Anatomy, physiology, chemistry, histology, materia medica, therapeutics, preventive medicine, practice of medicine, surgery, obstetrics, diseases of women and children, diseases of the nervous system, diseases of the eye and ear, medical jurisprudence, and such other branches as the Board shall deem advisable.

Note.—The Medical Act does not provide for the endorsement of other state licenses.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Salo-Sedatus. Prescribe for Fever and Pain. See page 6.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Salo-Sedatus. Prescribe for Fever and Pain. See page 6.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

RECTAL DISEASES.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

THE St. Paul Medical Journal.

**B
E
C
A
U
S
E**

1st. It is controlled by a Medical Society.

2nd. Its object is to support a medical library, which is open to all physicians.

3rd. Its advertising pages are clean — it prints no "reading notices" concerning pharmaceutical preparations. Its advertising pages are distinct from its reading matter. It is the only Journal west of Chicago, of which this can be said.

4th. It publishes the best medical literature produced in the northwest.

5th. It furnishes abstracts of the most important current medical literature of the world, making a special feature of the Scandinavian literature, which cannot be found elsewhere in English.

6th. It is a Medical Journal owned and published by medical men in the interest of, and for the advancement of the medical profession of the northwest.

\$2.50 PER YEAR.

Issued Monthly by the Ramsey County
Medical Society, Lowry Arcade,

St. Paul, Minnesota.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

RECTAL DISEASES.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

CAUTION.

Beware of so called Medical Directories, plagiarized from R. L. Polk & Co.'s Medical and Surgical Register of the U. S. and Canada, in violation of the copyright laws.

We have positive proof that some of the so-called State Medical directories issued since August, 1900, were copied from our 1900 Register and palmed off as new and original works.

Our friends will confer a favor upon us as well as render a service to the medical profession by promptly notifying us of such attempted frauds.

HATTIESBURG, - MISSISSIPPI.

With X-Ray and a complete set of Electrical Appliances, Hot Air and Vapor Baths, Microscope, and fully equipped Operating Room, we are prepared for Scientific Work in Diagnosis and Treatment of all Classes of Diseases. Competent corps of Trained Nurses in constant attendance. Fresh supply of water from Mammoth Mineral Springs daily. Every courtesy will be extended to physicians who may wish to treat their patients in our institution.

TRAINING SCHOOL FOR NURSES.

MISSISSIPPI.

CAPITAL, JACKSON.

Population of State, 1,551,270.

(U. S. Census of 1900.)

Number of Physician, 1,555.

Mississippi was organized as a territory April 7, 1798, and admitted as a state, December 10, 1817. The total land surface is, approximately, 46,340 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 27.8; 1900, 33.5. It extends from 30° 20' to 35° north latitude, and from 88° 12' to 91° 40' west longitude, and is bounded on the north by Tennessee, on the south by Louisiana and the Gulf of Mexico, on the east by Alabama, and on the west by Arkansas and Louisiana. The climate is warm, the winters being short and mild, the summers long and hot. The mean annual temperature as observed at Vicksburg is 65.57°, that of the summer 80.52° and of the winter, 50.45°. The average annual rainfall is about 54 inches, ranging from 48 inches in the northwest to 64 on the Gulf coast. The northeastern is the highest part of the state and forms an undulating table land, which slopes gently down towards the west and south, and terminates with steep bluffs on the banks of the Mississippi and Yazoo rivers. In several places these bluffs approach close to the river; in others a broad belt of swampy bottom lands extends along their base. The northwest part of the state includes the largest of these swampy regions, which are extremely fertile. The state is well watered. The principal rivers are the Mississippi and its tributaries, the Yazoo, Big Black, Tallahatchie, Sunflower, Bayou Pierre, Yallahusha and Homochitto, and their tributaries, the Pearl, which empties into the Mississippi sound, the Pascagoula river, which is formed by the Leaf and Chickasawha rivers and empties into the Gulf, and the Tombigbee, which drains the northeastern portion. The Tennessee river touches the northwest corner of the state for about fifteen miles. The soil is very fertile, and the vegetation luxuriant.

The following table shows increase in population for 70 years:

1830.....	136,621	1870.....	827,922
1840.....	375,651	1880.....	1,131,597
1850.....	606,526	1890.....	1,289,600
1860.....	791,305	1900.....	1,551,270

Winston Springs—Postoffice, Louisville.

White's Springs—Postoffice, Fulton.

SYNOPSIS OF MEDICAL LAW.

Chapter 104, Annotated Code, 1892. "Every person who desires to practice medicine must first obtain a license to do so from the State Board of Health. If any person shall practice as a physician or surgeon, without having first been examined and obtained a license as required by law, he shall, on conviction, be fined not less than \$20 nor more than \$200, or be imprisoned in the county jail not exceeding thirty days. Every person who desires to obtain a license to practice medicine must apply therefor to the State Board of Health, and must be examined by said Board touching his learning in the following branches of medicine only, viz., anatomy, chemistry, obstetrics, materia medica, physiology, pathology, surgery, and hygiene; and, if the applicant be found by the Board, upon examination, to possess sufficient learning in said branches and be of good morals, the Board shall at once issue to him a license to practice medicine, which shall be signed by each member who approves of its issuance. * * * Every person who shall apply for license to practice medicine, shall, before he will be entitled to be examined, pay a fee of \$10.25, of which \$10 are to be divided equally among those members of the Board who attend and conduct the examination of the applicant, and 25 cents to be paid to the secretary of the Board for filing and preserving the application for license. Every person who receives a license to practice medicine must file it in the office of the clerk of the Circuit Court of the county in which he resides within sixty days from the date of its issuance; otherwise it shall become void. The secretary of the State Board of Health may issue under his signature a temporary license to anyone to practice medicine, which shall be valid until the next meeting of the Board for examining applicants; and such license shall show that

date of its issuance, otherwise it shall become void. Only one temporary license shall ever be issued to the same person, and it shall always be made to an individual and not to a partnership. The secretary shall be entitled to 25 cents for such license, and the same shall be recorded as a permanent license is required to be, under like penalty for failure." Secretary State Board of Health, Dr. John F. Hunter, Jackson.

Section 1. Chap. 79, Acts 1898. Be it enacted by the Legislature of the State of Mississippi, that section 3246 of the Annotated Code of Mississippi be amended to read as follows: The State Board of Health shall meet at the capitol twice in each year, at such time as may be designated by the Board, for the purpose of examining applicants for license to practice medicine, and shall continue in session until all applicants are examined and the examinations are approved or disapproved. All examinations as to applicant's learning shall be upon written questions and answers, and distinction shall not be made between applicants because of the different systems of schools or practice that may be chosen." The board has selected the second Tuesday in May and October to hold the examinations. —Journal of the American Medical Association.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Dear Doctor:--What would you prescribe for my case?

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

RECTAL DISEASES.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

TWO POINTS OF VIEW:

From an Advertiser:

"Our advertisement in the Interstate continues to bring better results from the middle western states, and particularly from St. Louis, than can be traced to all other journals we use."

From a Subscriber:

"I regard your journal as the best monthly medical publication issued in this country. Renew my subscription for another year."

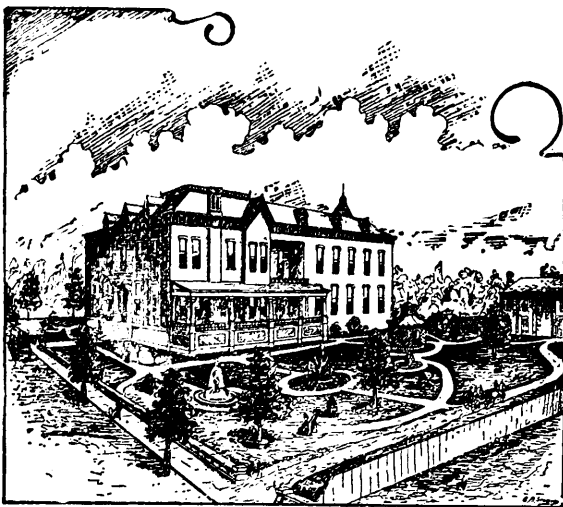

Published on the Fifteenth Day of Every Month by the

ST. LOUIS BAPTIST HOSPITAL

2945 Franklin Avenue.

C. C. MORRIS, A. M., M. D., Superintendent

Building roomy, homelike, free from Institutional features, superior appointments, skilled nurses, first-class Cuisine.

A large Operating Amphitheatre, and one of the finest private operating rooms in the West.

Every modern appliance for treatment of Medical and Surgical diseases, including the X-Ray.

A well equipped Pathological and Bacteriological Laboratory is a leading feature of this Institution.

Physicians sending cases for treatment may feel assured of every possible care and attention.

Reports of progress by mail when desired.

C. C. MORRIS, M. D., Chief Surgeon, with numerous Specialists.

For Further Information address the Superintendent.

MISSOURI.

CAPITAL, JEFFERSON CITY.

Population of State, 3,106,665.

(U. S. Census of 1900.)

Number of physicians, 6,314.

Missouri was organized as a territory December 7, 1812, and admitted as a state August 10, 1821. It is bounded on the north by Iowa, on the south by Arkansas, on the east by the Mississippi river, which separates it from Illinois, Kentucky and Tennessee, and on the west by Indian Territory, Kansas and Nebraska. This is one of the most diversified of western states as to soil, products, climate and surface and extends through four and one-half degrees of latitude. The elevation of the land varies from 287 feet in the southeast to 3,000 feet at Cassville. The Mississippi forms its eastern frontier and the Missouri borders it for a long way on the west. A line drawn from Hannibal to the southwestern corner of Missouri separates the prairie region of the north and west from the forest region on the east and south. North of the Missouri is a region of broken land with forests in the east and along the great rivers, and the rest is occupied by wide rolling prairies well watered and productive, and in effect a prolongation of the plains of Illinois and Iowa. Similar high grassy plateaus run west from the Ozark Mountains, and from the Mississippi to the Big Black. South of the

POLK'S MEDICAL

Missouri

Missouri the forests of the east are offset by these open prairies of the west, with large rivers, like the Osage and Gasconade, running northeast into the Missouri.

The Ozark Mountains run from the Missouri river east of the Osage, south-west into Arkansas and Kansas, changing from isolated hills and knobs to the high and arable tablelands of the west.

A large part of the state was originally covered with woodlands, oaks and elms, hickories, and maples in the north, huge cypresses and sycamores, cotton-woods, and gum-trees in the south, with scattered forests of red cedars and pines, pecans and persimmons. Great quantities of hardwood lumber are cut every year. The south counties contain immeasurable forests of yellow pine and live oak.

The Osage river is a noble stream, flowing from Kansas to the Missouri river, navigated by steamboats to Tuscombia (60 miles) and sometimes as far as War-saw (170 miles). It has a yearly commerce of \$600,000 in railway ties, rafts of oak and walnut logs, and steamboat freights, which has greatly increased.

In the south there are many mammoth springs, bursting from the ground with great force, and pouring their crystal floods down to the winding rivers. Sweet Springs, midway between Kansas City and Jefferson City, is the most fashionable watering-place in Missouri, with several valuable saline and sulphur springs, huge baths of salt water, and a hotel and cottages amid velvety lawns and a park of forest-trees, 500 feet above St. Louis, and near the Black Water river. Pertle Springs, in the same region, has the large Minnewawa Hotel and many summer cottages. The Windsor Springs, with its calcic waters, the Sul-phur Springs, and the famous Montesano Springs are in the region of the Mer-amac. El Dorado Springs, down in the southwest, are a group of chalybeate waters, with large efficacy in healing rheumatism and dyspepsia and other chronic diseases. The Chouteau, Monagaw, Cheltenham and Elk waters are sulphurous.

The climate is full of extremes, being devoid of moderating sea-air or shel-tering hill ranges. It is dry, owing to the rapid evaporation; and the sky is usually clear and bright. The least rain falls in April.

The following table shows the increase in population since 1810:

1810.....	20,845	1860.	1,182,012
1820.....	66,557	1870.	1,721,295
1830.....	140,455	1880.	2,168,380
1840....	383,702	1890.	2,679,184
1850....	682,044	1900	3,106,665

SYNOPSIS OF MEDICAL LAWS.

Extract from law approved March 12, 1901, and taking effect June 16, 1901:

Sections 3 and 4. All persons desiring to practice medicine or surgery in this state or to treat the sick or afflicted as provided in section 1 of this act, shall appear before the State Board of Health at such time and place as the Board may direct, and shall be there examined as to their fitness to engage in such practice. All persons appearing for examination shall make application in writing to the Secretary of said Board thirty days before the meeting. They shall furnish satisfactory evidence of their preliminary qualifications, and shall also furnish evidence of good moral character. The medical examination may be in whole or in part in writing and shall be of elementary and practical character but sufficiently strict to test the qualifications of the candidate as a practitioner, and shall embrace the subjects of anatomy, chemistry, physiology, pathology, therapeutics, obstetrics, gynecology, surgery, practice of medicine, medical jurisprudence, and hygiene, and such other branches as the State Board may direct.

"The candidate shall be required to answer 75 per cent of such questions as are asked him before being granted a certificate. Provided, however, that the examination of any applicant in therapeutics shall be conducted by the member or members of said Board who represent the system of medicine of which said applicant has been a student. If there shall be no representative of the school or system of which the applicant has been a student, the examination in therapeutics shall be conducted by an examiner appointed for that purpose by the Governor of Missouri, but all examinations other than that in therapeutics shall be conducted as heretofore provided in this act. The Board of Health shall issue to such persons as they find upon examination to possess the requisite qualifications a license to practice medicine and surgery in accordance with the provisions of this act, and the State Board of Health shall not be permitted to favor any particular school or system of medicine, but all applicants shall be subjected to the same examination, and the same degree of proficiency shall be required of all."

Section 4. Every person holding a license from the State Board of Health shall have it recorded in the office of the county clerk of the county in which he resides, and the record shall be endorsed thereon. Any person removing to another county to practice medicine and surgery shall have his license recorded in the office of the clerk of the county to which he removes, and the holder of said license shall pay to said clerk of said county the usual fee for making the record.

Fee for examination, \$15, re-examination free within 12 months. License must be recorded within 20 days with the county clerk, fee \$1; in St. Louis with the Health Commissioner. Board meets for examinations quarterly, on January 1st of each year at Jefferson City, and at other points as the president and members of the Board select.—Journal of the American Medical Association.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

BONNER SPRINGS LODGE

BONNER SPRINGS, KANSAS,

(A Suburb of Kansas City, Mo.)

A pleasant home for nervous invalids and neurotic habits. The attention of the medical profession is respectfully called to the advantages offered at this institution in the care and treatment of Hysteria, Neurasthenia, Melancholia, Morphinism, Inebriety and the various psychoses. For the disorders mentioned a skillful combination of the family plan, or home treatment, with the appliances and regime of a first-class sanitarium are to be found at the Lodge. Far removed from the dust and heat of the city, the clang of car bells and the many distractions of a commercial center, we have a handsome and commodious structure of fifty rooms, with 500 feet of broad verandas, steam heat, sanitary plumbing, baths, electricity, abundant water of the finest quality, a high and healthy location, a beautiful lawn, a magnificent view of the Kaw river and valley and a park of eighty acres, containing many medicinal springs of undoubted value.

The Lodge is under the daily personal supervision of Dr. M. P. Sexton, of Kansas City Mo., who is a member of the regular medical profession and devotes his exclusive attention to nervous and mental diseases.

Particular attention is called to the fact that a nurse is assigned to each patient. Although this involves some additional expense, experience warrants the statement that the investment is a good one, individual attention being the keynote to success in these cases.

The Lodge is conducted upon strictly ethical lines, no patronage being solicited except through the profession.

The charges are as low as may be obtained at any institution of similar character and equal grade.

Century Building,

KANSAS CITY, MO.

EVERY PHYSICIAN has among his clientele many who are addicted to the use of narcotic drugs or alcoholic stimulants. Physicians in general practice find it impossible to give these patients the proper treatment and surveillance, and recognize the advisability of sending them to an institution devoted to this specialty, where they may have the exclusive attention of physicians who give their entire time to the care of this class of cases. The Keeley Institute of Kansas City has been in active operation for over ten years. The system of treatment formulated by Dr. Leslie E. Keeley is employed, and has been administered with gratifying success. Write for particulars.

--	---	--

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Dear Doctor:--What would you prescribe for my case?

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key) which will be found on pages 131 to 172 indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

The postoffice address is shown in DISPLAY TYPE, the name of the county which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Dear Doctor:--What would you prescribe for my case?

See page 14.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

Medical Department of Washington University

(St. Louis and Missouri Medical College.)

THE SESSION BEGINS EACH YEAR ON THE FOURTH
THURSDAY OF SEPTEMBER.

MEDICAL FACULTY:

- | | |
|--|--|
| J. B. Johnson, M. D., Professor Emeritus of the Principles and Practice of Medicine. | E. W. Saunders, M. D., Professor of the Diseases of Children and Clinical Midwifery. |
| P. Gervais Robinson, M. D., LL. D., Professor Emeritus of the Principles and Practice of Medicine. | N. B. Carson, M. D., Professor of Clinical Surgery. |
| J. K. B. uduy, M. D., LL. D., Professor Emeritus of Psychological Medicine and Diseases of the Nervous System. | J. B. Shapleigh, M. D., Professor of Otology, Dean. |
| Winfield S. Chaplin, LL. D., Chancellor of the University. | Sidney P. Budgett, M. D., Professor of Physiology, Registrar. |
| Elisha H. Gregory, M. D., LL. D., Professor of the Principles of Surgery. | W. H. Warren, Ph. D., Professor of Chemistry, Secretary. |
| G. Baumgarten, M. D., Professor of the Practice of Medicine. | R. J. Terry, M. D., Professor of Anatomy. |
| H. Tuholske, M. D., Professor of the Practice of Surgery and Clinical Surgery. | John Green, M. D., Special Professor of Ophthalmology. |
| T. F. Prewitt, M. D., Professor of the Principles of Surgery. | Frank R. Fry, M. D., Professor of Diseases of the Nervous System. |
| W. E. Fischel, M. D., Professor of Clinical Medicine. | F. A. Glasgow, M. D., Professor of Clinical Gynecology. |
| Robert Luedeking, M. D., Professor of the Diseases of Children. | H. G. Mudd, M. D., Professor of Fractures and Dislocations, and Clinical Surgery. |
| John P. Bryson, M. D., Professor of Genito-Urinary Surgery. | E. M. Senseney, M. D., Professor of Diseases of the Throat, Nose and Chest. |
| Justin Steer, M. D., Professor of Clinical Medicine. | A. J. Steele, M. D., Professor of Orthopedic Surgery. |
| W. A. Hardaway, M. D., LL. D., Professor of Diseases of the Skin and Syphilis. | Joseph Grindon, M. D., Professor of Clinical Dermatology and Syphilis. |
| H. N. Spencer, A. M., M. D., LL. D., Professor of Otology. | A. V. L. Brokaw, M. D., Professor of Clinical Gynecology. |
| W. C. Glasgow, A. B., M. D., Professor of Clinical Medicine and Laryngology. | Amand Ravold, M. D., Professor of Bacteriology and Hygiene. |
| Henry Schwarz, M. D., Professor of Obstetrics. | Charles Nagel, LL. B., Professor of Medical Jurisprudence. |
| Paul Y. Tupper, M. D., Professor of Applied Anatomy and Operative Surgery. | H. M. Whelpley, Ph. G., M. D., Professor of Materia Medica and Pharmacy. |

THIS School, which is the result of the combination of the two oldest and most influential Medical Colleges west of the Mississippi, offers students the best laboratory and clinical advantages in the West. Its clinical material is drawn from seven different hospitals.

The faculty, clinical instructors, and clinicians constitute a force of nearly one hundred physicians, most of whom are engaged in actual practice. An eminently practical course of medical instruction is given.

Large dissecting room. Modern and perfectly appointed laboratories for Chemistry, Physiology, Pathology, Bacteriology and Histology, these branches being taught by specialists who devote their entire time to teaching.

Four years graded course. Elective system is in vogue, and it gives wide range in choice of work along special lines. Four-fifths of the appointments in city hospitals awarded our graduates this year, and this is also true of the total number of appointments made in previous years.

For further particulars, catalogue or information about advanced standing, etc., address:

J. B. SHAPLEIGH, M. D., Dean,

WILLIAM H. WARREN, Ph. D., Secretary.

2608 Locust Street.

1806 Locust St., ST. LOUIS, MO.

Omaha Sanitarium, Of OMAHA, NEB.

CHAS. H. BREUER,
M. D., Med. Director.
(SEE ADV. PAGE 17.)

A modern institution for treatment of Chronic Diseases.

--	---	--

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

DOCTOR.

Have you tried **SALO-SEDATUS**
in Typhoid Fever. See page 6.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

MONTANA.

CAPITAL. HELENA.

Population of State, 243,329.

(U. S. Census of 1900.)

Number of Physicians, 322.

Montana was organized as a territory May 26, 1864, and admitted as a State November 8, 1889. It extends from 104 degrees to 116 degrees west longitude and from 44 degrees 25 minutes to 49 degrees north latitude and is bounded on the north by the British Possessions, on the east by the Dakotas, on the south by Wyoming and Idaho and on the west by Idaho. The great area of the State can be better appreciated by giving its width north and south as 275 miles and its average length east and west 535 miles and calling attention to the fact that it is the third largest of the States of the Union. Less than one-third of its area is occupied by the Rocky Mountains, and the lesser ranges and spurs, and the other two-thirds is about equally divided between range and agricultural lands.

Besides the three great rivers, the Missouri, the Yellowstone and the Columbia, there are a number of other noble streams, notably the Jefferson, Madison, Mussel-shell, Gallatin and Deer Lodge Rivers, as well as many smaller rivers and thousands of mountain streams. The climate is milder than the latitude and elevation would seem to indicate, the mean annual temperature as observed at Helena being 43.04°, that of the summer 70.28° and of the winter 19.16° The following table shows increase in population since 1870:

1870.	20,595	1890.	132,159
1880.	39,159	1900.	243,329

STATE BOARD OF HEALTH.

Hon. J. K. Toole, Governor, Helena; Hon. James Donovan, Attorney-General, Helena; Wm. Treacy, M. D., President, Helena; J. L. Belcher, M. D., Townsend; J. Robertson, Civil Engineer, Bozeman; A. F. Longeway, M. D., Secretary, Great Falls.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 173) indicates the college of graduation, and the last number the year in which diploma was granted.

SYNOPSIS OF MEDICAL LAWS OF MONTANA.

Section 1. Provision is made for a Board of Medical Examiners, consisting of seven members.

Sec. 3. Every person hereafter wishing to practice medicine or surgery in any of their departments in this State, shall apply to said board for a certificate so to do. Every person applying shall present his or her diploma to the said board of examiners for verification as to its genuineness; and if the diploma is found genuine and is issued by a medical school legally organized and in good standing, whose teachers are graduates of a legally organized school, which facts the said board of examiners shall determine, and if the person presenting and claiming said diploma be the person to whom the same was originally granted, at a time and place designated by said board, or at a regular meeting of said board, said applicant shall submit to an examination in the following branches, to wit: Anatomy, physiology, chemistry, histology, materia medica, therapeutics, preventive medicine, practice of medicine, surgery, obstetrics, diseases of women and children, diseases of the nervous system, diseases of the eye and ear, medical jurisprudence, and such other branches as the board shall deem advisable, and present evidence of having attended four courses of lectures of at least six months each, but such evidence of attending such four courses of lectures shall not be required of applicants graduating prior to July 1, 1898; said board shall cause such examination to be both scientific and practical, but of sufficient thoroughness and severity to test the candidate's fitness to practice med-

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

icine and surgery; when desired, such examination may be conducted in the presence of the dean of any medical school, or the president of any medical society of this State. After examination such board shall, if the candidate has been found qualified, grant a certificate to such candidate to practice medicine and surgery in the State of Montana; which said certificate can only be granted by the consent of not less than four members of the said board and which certificate shall be signed by the president and secretary of said board and attested by the seal thereof: Provided, however, that during the intervening period of the sessions of the board, any person desiring to practice medicine in this State may present his or her diploma to the president or secretary of the board, who may issue a certificate good until the next regular meeting of the board; and provided further, that all physicians and surgeons who hold certificates granted by the now existing board of medical examiners shall be exempt from the provisions of this section.

Sec. 5. Every person obtaining a certificate from the board must, within 60 days from the date thereof, have the same recorded in the office of the county clerk in the county wherein he resides; if he removes from one county to another to practice medicine or surgery, his certificate must immediately be recorded in the county to which he removes. The county clerk must endorse upon the certificate the date of record, and he is entitled to charge and receive his usual fee for such services, the fee to be paid by the applicant.

Sec. 6. This act shall not apply to midwives of skill and experience, commissioned surgeons of the United States army and navy in the discharge of their official duties, nor to physicians and surgeons in actual consultation from other states and territories.

Sec. 8. Candidates for examination shall pay in advance to the secretary of the board of medical examiners a fee of fifteen dollars (\$15), which fee shall defray the entire expense of said candidates for examination before the aforesaid board of examiners. Any one failing to pass the required examination shall be entitled to a second examination within six months, without fee.

NEBRASKA.

CAPITAL, LINCOLN.

Population of State, 1,068,539.

(U. S. Census of 1900.)

• Number of Physicians, 1,532.

Nebraska was organized as a territory, May 30, 1854, and admitted as a state, March 1, 1867. The total land surface is, approximately, 76,840 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900, being as follows: 1890, 13.8; 1900, 13.9. It extends from 40° to 43° north latitude, and from 95°, 13' to 104° west longitude, and is bounded on the north by South Dakota, on the south by Kansas and Colorado, on the east by Iowa and Missouri, and on the

POLK'S MEDICAL

Nebraska

west by Colorado and Wyoming. The climate is salubrious, the mean annual temperature as observed at Omaha being 49.28°, that of the summer 74.26°, and that of the winter 23.36°. The average rainfall is about 26 inches. Nebraska is part of that vast plane which extends along the eastern base of the Rocky Mountains and gently slopes down toward the Mississippi river. The surface is flat or gently undulating. The soil consists for the most part of a black and porous loam, which is slightly mixed with sand and lime. The streams flow in deeply eroded valleys with broad alluvial bottoms of the greatest fertility which are generally well timbered with cottonwood, poplar, ash and other deciduous trees. The uplands are undulating prairies presenting an almost unlimited field for stock raising and wool growing.

The following table shows increase in population since 1860:

1860.	28,841	1890.	1,058,910
1870.	122,993	1900.	1,068,539
1880.	452,402

MEDICAL LAWS OF NEBRASKA.

AN ACT to establish a State Board of Health, to regulate the practice of medicine in the State of Nebraska, and to repeal Sections one (1) to eleven (11), inclusive, of Chapter fifty-five (55) of Compiled Statutes of Nebraska, entitled "An Act to Regulate the Practice of Medicine," approved March 3, 1881, and amended in 1883, and all other acts inconsistent herewith, and provide a penalty for the violation of this act. Laws, 1891, Chapter 35. Took effect July 5, 1891. Amended 1897. Act constitutional in its general scope. Form of indictment. 46 Neb. 157. Object of act to prevent imposition upon afflicted.
Section 1. There shall be established in the State of Nebraska a board to be styled the State Board of Health. Said board shall consist of the governor, attorney-general and

Grand Trunk — For Niagara Falls, Toronto, Railway System. Montreal, Portland, Canada and the East.

Nebraska

REGISTER AND DIRECTORY.

Nebraska

1223

superintendent of public instruction, and the governor shall be ex-officio chairman of said board.

Sec. 2. Said board shall meet upon the call of the governor and within 30 days after the approval of this act and shall meet thereafter as often and at such times as the governor may from time to time designate.

Sec. 3. Said board shall, within 60 days after the approval of this act, appoint four secretaries, who shall be graduated physicians of at least seven years' consecutive practice, who shall be at the time of their appointment actually engaged in practice in the State of Nebraska; one of whom shall be appointed for the term of one year, one for the term of two years, one for the term of three years and one for the term of four years; and thereafter it shall be the duty of said board to appoint or reappoint one secretary every year as the term of those theretofore appointed shall expire, but each secretary shall continue in office until his successor shall have been appointed. Said appointments shall be made so that of said secretaries two shall be physicians of the so-called regular school, one of the so-called eclectic school and one of the so-called homoeopathic school.

Sec. 4. Said secretaries shall have power and it shall be their duty to assist and advise said board in the performance of its duties as prescribed by this act; to summon witnesses and take testimony in the same manner as witnesses are summoned and depositions taken under the Code of Civil Procedure, and to report said testimony to the board together with their findings of fact and recommendations on all matters coming before said board requiring evidence for their determination, except as hereinafter provided.

Sec. 5. It shall be the duty of said board to see that all the provisions of this act are strictly enforced; to grant certificates as herein provided, and to cause to be prosecuted all violations of this act. Said board shall have and use a common seal, and may make and adopt all necessary rules, regulations and by-laws not inconsistent with the constitution and law of this State or of the United States, to enable it to perform its duties and transact its business under the provisions of this act.

Sec. 6. A majority of said board shall constitute a quorum for the transaction of business.

Sec. 7. It shall be unlawful for any person to practice medicine, surgery or obstetrics, or any of the branches thereof, in this State without first having obtained and registered the certificate provided for by this act; and no person shall be entitled to the certificate herein provided for unless he shall be a graduate of a legally chartered medical school or college in good standing; said qualifications to be determined by the board. Provided, however, that nothing in this act shall be construed to prevent physicians residing in other States from visiting patients in consultation with resident physicians who have complied herewith.

Sec. 8. The term "medical school or college in good standing" shall be defined as follows, to-wit: A medical school or college requiring a preliminary examination for admission to its course of study in all the common branches, and in Latin and the higher mathematics, which requirements shall be regularly published in all the advertisements and in each prospectus or catalogue issued by said school, when medical school or college shall also require as a requisite for granting the degree of M. D. attendance upon at least four courses of lectures of six months each, no two of said courses to be held within one year, and having a full faculty of capable professors in all the different branches of medical education, to-wit: Anatomy, physiology, chemistry, toxicology, pathology, hygiene, materia medica, therapeutics, obstetrics, bacteriology, medical jurisprudence, gynecology, principles and practice of medicine and surgery, and specially requiring clinical instruction in the two last named of not less than four hours per week in each during the last two courses of lectures: Provided, that this four years' clause shall not apply to degrees granted, or to be granted, prior to August, 1898.

Sec. 9. It shall be the duty of all persons intending to practice medicine, surgery or obstetrics in the State of Nebraska, before beginning the practice thereof, in any branch thereof, to present his diploma to said board, together with his affidavit that he is the lawful possessor of the same; that he has attended the full course of study required for the degree of M. D., and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such official, if he has a seal; and any person swearing falsely in such affidavit shall be guilty of perjury and subject to the penalty thereof.

Sec. 10. If, upon investigation of said diploma and affidavit, the applicant shall be found entitled to practice, there shall be issued to said applicant the certificate of said board, under its seal and signed by its secretaries, stating such fact, and it shall be the duty of the applicant, before practicing, to file such certificate, or a copy thereof, in the office of the county clerk of the county in which he or she resides or in which he or she intends to practice; such certificate or copy shall be filed by the county clerk and by him recorded in a book to be kept for that purpose, properly indexed, to be called the "Physicians' Register"; and for such services the county clerk shall receive from the applicant the same fees as are allowed to the register of deeds for the recording of conveyances.

Sec. 11. Exceptions to Act. (Defines status of those engaged in practice in Nebraska when this act was passed in 1891.)

Sec. 12. It shall be the duty of said secretaries to keep a full record of all the acts and proceedings of said board and of all certificates granted thereby, together with the proof upon which certificates are granted; but when said proof in any case shall have been on file in the office of said board for ten days said certificate may be issued by said

Nebraska

secretaries without a vote of the board, if no protest has been filed, and if, in their opinion, said proof complies with the provisions of this act.

Sec. 13. Any person who shall have obtained a certificate provided by this act, and shall remove to another county, shall, before the entering upon the practice of his profession in such other county, cause said certificate to be filed and recorded in the office of the county clerk of the county to which he has removed.

Sec. 14. The board may refuse certificates to persons guilty of unprofessional or dishonorable conduct, and it may revoke certificates for like cause; provided, always, that they have given the person an opportunity to be heard in his or her defense.

Sec. 15. No person shall recover in any court in this State any sum of money whatever for any medical, surgical or obstetrical services unless he shall have complied with the provisions of this act and is one of the persons authorized by this act to be registered as a physician.

Sec. 16. Any person not possessing the qualifications for the practice of medicine, surgery or obstetrics required by the provisions of this act, or any person who has not complied with the provisions of this act, who shall engage in the practice of medicine, surgery or obstetrics, or any of the branches thereof, in this State, shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be fined in any sum not less than fifty dollars (\$50) nor more than three hundred dollars (\$300), and costs of prosecution for each offense, and shall stand committed until such fine and costs are paid.

Sec. 17. Any person shall be regarded as practicing medicine within the meaning of this act who shall operate or profess to heal or prescribe for or otherwise treat any physical or mental ailment of another. But nothing in this act shall be construed to prohibit gratuitous services in case of emergency, and this act shall not apply to commissioned surgeons in the United States army and navy, nor to nurses in their legitimate occupations, nor to the administration or ordinary household remedies.

Sec. 18. Any itinerant vendor of any drug, nostrum, ointment or appliance of any kind intended for the treatment of any disease or injury, or who shall, by writing, printing or any other method, publicly profess to cure or treat diseases or injury or deformity, by any drug, nostrum, manipulation or other expedient, shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined in any sum not less than fifty dollars (\$50) nor more than one hundred dollars (\$100), or be imprisoned in the county jail for a period of not less than thirty (30) days nor more than three (3) months, or both, in the discretion of the court, for each offense.

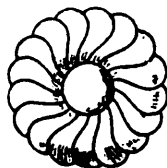

Sec. 19. Each applicant for a certificate of registration shall pay a fee of ten dollars, which shall be equally divided between the four secretaries as their sole remuneration for their services and for issuing certificate. Provided, That for the taking of any necessary testimony the said secretaries shall be entitled to charge and to receive such fees as are provided for notaries public for similar services.

RULES adopted by the Nebraska State Board of Health, February 3, 1898:

Rule 1. That this board will hereafter refuse to issue a State certificate to applicants who present diplomas from foreign countries as a basis for registration, unless the holder of said diploma has passed the State examination and received a certificate entitling him to practice medicine and surgery in the country in which his diploma was issued, or unless he is a licentiate of a recognized college of physicians and surgeons authorized to grant licenses.

2. That in future no certificate will be issued without letters of recommendation with regard to the moral and professional character of the applicant from at least two reputable medical men who live in Nebraska, or, if from non-residents of this State, such letters must be endorsed by reputable medical men of Nebraska.

Explanation.—The Constitution of Nebraska places a distinct limitation upon the number of State officers, hence such bodies as the Board of Railroad Commissioners, Board of Health, etc., can only exist under the guise of "secretaries" to a real board comprised of certain State officers. Some misgivings were entertained in the early years of medical law as to the efficiency of the work carried out under this restriction. However, experience has shown this fear to be groundless, for no action of the medical secretaries has been opposed by the board proper, and their reports and decisions regulating the practice of medicine have been uniformly sustained. The constitutionality of our law has been upheld by the Nebraska Supreme Court in every case which has come before it for a decision.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted,

Premier Mineral Baths, SALINE-SULPHUR WATER. Benton Harbor, Mich.

Physicians are especially requested to write H. R. SMITH, Manager,
for particulars and terms.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

NEVADA.

CAPITAL, CARSON CITY.

Population of State. 42,335.

(U. S. Census of 1900.)

Number of Physicians, 69.

Nevada extends from 114 degrees to 120 degrees west longitude, and from 35 degrees to 42 degrees north latitude, and is bounded on the north by Oregon and Idaho, and on the southwest and west by California, and on the east by Utah and Arizona. It comprises an area of 109,740 square miles, or 70,233,609 acres. The climate is subject to great extremes, the winters being very cold, the summers hot. The atmosphere is dry, with but little rain or snow. The mean annual temperature is 54.13 degrees; that of the summer 75.18 degrees, and of the winter 34.55 degrees.

 Whelan's White Sulphur and Mineral Springs—Postoffice, Pine Valley.

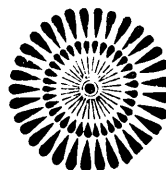

SYNOPSIS OF MEDICAL LAW.

The Governor appoints a mixed Board of Medical Examiners, which issues two forms of certificates, one for persons who present to it satisfactory diplomas or licenses, and the other for candidates who may be examined by the Board, and "whenever a certificate is issued by said board it shall notify the respective county clerks of the several counties within the State of the issuance of such certificate or certificates, and it shall be the duty of said clerks to keep and file said notices and also keep a list of the persons to whom issued."

"It shall also issue a certificate to any person who has had issued to him a diploma or license from any reputable school or college of medicine and surgery which is located without the United States, upon the applicant being found competent after having passed a satisfactory examination by the said board. When the board is not in session its secretary may issue a temporary certificate whenever the applicant shall have deposited the usual fee and filed his diploma or license with him, and such temporary certificate shall entitle the holder to practice until the next regular meeting of said board. And all examinations of applicants to practice shall be thorough and searching and shall be in the following branches: Anatomy, physiology, chemistry, materia medica, therapeutics, principles and practice of medicine, principles and practice of surgery, gynæcology, obstetrics, ophthalmology, pathology and all subjects relating to the practice of medicine and surgery. The board may judge whether the college or institution which issued any diploma or license presented to it is reputable and legally chartered and worthy of recognition subject to the action of the courts in cases of abuse of its discretion in this respect."

The fee for certificate is \$25. Certificate must be recorded with County Recorder.

Sec. 10. Any person shall be regarded as practicing medicine, within the meaning of this act, who shall profess publicly to be a physician or surgeon, or who shall prescribe for the sick or profess to cure the sick by the administration of drugs or other means, or shall append to his name the letters "M. D."; but nothing in this act shall be construed to prohibit any gratuitous services in cases of emergency, or to commissioned surgeons in the United States army or navy.—Journal American Medical Association.

Dear Doctor:--What would you prescribe for my case?

NEW HAMPSHIRE.

CAPITAL, CONCORD.

Population of State, 411,588.

(U. S. Census of 1900.)

Number of Physicians, 732.

New Hampshire, one of the original thirteen States, has a population (according to the United States Census of 1900) of 411,588, as against 376,530 in 1890, representing an increase during the decade of 35,058, or 9.3 per cent. The total land surface of New Hampshire is, approximately, 9,005 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 41.8; 1900, 45.7. It is bounded on the north by Canada, on the south by Massachusetts, on the east by Maine and the Atlantic Ocean, and on the west by Vermont, and extends from 42 degrees, 41 minutes to 45 degrees, 11 minutes, north latitude, and from 70 degrees, 40 minutes, to 72 degrees, 28 minutes, west longitude. Along the sea coast extends a tract of low and level land, some thirty miles wide, which rises to a narrow belt of hill country and culminates in the famous White Mountains in the northern part of the State, of which the highest point, Mt. Washington, forms the loftiest summit in New England. This range has outlying groups interspersed over the State. The climate is rigid and the winters long and severe, particularly in the more elevated mountainous districts. The summers are usually mild and pleasant, although a temperature of over 100° in the shade is not of rare occurrence. The mean annual temperature ranges from 38° in Coos county and the White Mountains to 48° in the southern portion. The rainfall averages from 10 to 14 inches in summer, from 6 to 12 inches in winter, and from 32 to 40 inches during the year. The sea coast and the Connecticut valley receive the largest amount of precipitation.

The State is well watered. The principal rivers are the Connecticut (which forms its entire western line of demarcation), with its numerous tributaries, and the Merrimac, with its feeders flowing through the center of the State and emptying into the Atlantic. The upper waters of the Androscoggin drain a large portion of the northern section. There are numerous lakes and the State is noted for the remarkable beauty of its mountain and lake scenery. Fine forests of oak, pine, beech, sugar maple, birch, etc., cover the mountains and the northern parts of the State, and willows, poplars and sycamore grow along the rivers.

The following table shows population for 70 years:

1830...	269,328	1870.....	315,300
1840...	284,574	1880.....	346,991
1850.....	317,976	1890.....	376,530
1860.....	326,073	1900.....	411,588

Total number of deaths in 1900 was 7,624; rate per thousand of population, 18.52.

For list of Medical Colleges, see page 138.

STATE BOARD OF HEALTH.

Governor C. B. Jordan, Lancaster; Attorney-General E. G. Eastman, Exeter; G. P. Conn, M. D., President, Concord; C. S. Collins, M. D., Nashua; Robert Fletcher, C. E., Hanover; Irving A. Watson, M. D., Secretary, State House, Concord.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

(SEE PAGE 8.)

SYNOPSIS OF MEDICAL LAW

The law provides for three Boards of Examiners, representing the regular, homoeopathic and eclectic state societies. To be admitted to examination for license to practice medicine, the candidate must be over 21, of good moral character, have a college degree or education equivalent to a full course in a registered academy or high school and have studied medicine not less than four full school years, including four satisfactory courses of not less than six months each in four different calendar years, and must either have received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practice medicine in some foreign country. Five or more years of reputable practice may be taken as equivalent for part of the preliminary education or four-course requirements, provided the substitution is stated in the license. The fee for examination is \$10. Second examination permitted after six months' additional study without additional fee. Christian scientists, magnetic healers, clairvoyants, etc., exempted from provisions of this act if they do not call themselves doctors or M. D.'s. The law contains a reciprocity clause, but it is not enforced, as it is not mandatory.—Journal of the American Medical Association.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

NEW JERSEY,

CAPITAL, TRENTON.

Population of State, 1,883,669.
(U. S. Census of 1900.)
Number of Physicians, 2,281.

New Jersey, one of the original thirteen states, extends from 38 degrees 56 minutes to 41 degrees 30 minutes north latitude, and from 73 degrees 55 minutes to 75 degrees 32 minutes west longitude, and is bounded on the north by New York, on the south by Delaware bay, on the east by the Atlantic ocean, and on the west by Pennsylvania.

The state may be divided into three sections. The northwestern part is mountainous, being traversed by a broad belt of ridges belonging to the Appalachian system. The middle section consists of red sandstone with trap ridges and is diversified by gentle undulations. The lower half of the state, with its sandy soil and its forests of pine, is comparatively level and forms a part of the Atlantic coast plain. The climate is mild, being tempered by the vicinity of the ocean. The mean annual temperature, as observed at Newark during a period of 24 years, was 50.50 degrees, that of the summer 70.35 degrees and that of the winter 30.75 degrees.

The state is well watered, and the abundance of its streams renders perfect drainage very easy, while their rapid fall gives them great value for their water power. The principal rivers are the Hudson, which runs along the eastern border for 28 miles; the Delaware, forming the western border and draining 2,100 square miles of its area; the Hackensack, Raritan, Passaic, Navesink, Rahway, Great Egg, Shrewsbury, Toms, Maurice and Mullica. There are numerous beautiful small lakes in the northwestern part of the state.

The following table shows increase in population since 1830:

1830.....	320,823	1870.....	906,096
1840.....	373,306	1880.....	1,131,116
1850.....	489,555	1890.....	1,444,933
1860.....	672,035	1900.....	1,883,669

The total land surface is, approximately, 7,525 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 192.0; 1900, 250.3.

SYNOPSIS OF THE REQUIREMENTS TO PRACTICE MEDICINE AND SURGERY.

1. Name, address, place and date of birth, showing that applicant is over 21 years of age.
2. Character.—Certificates of moral character from not less than two physicians in good standing, one of whom must be a resident of New Jersey.
3. Academic Education.—A certificate of academic education must be presented with each application for examination. (1) Graduates in arts, sciences, philosophy, dentistry, pharmacy or veterinary medicine, from accredited colleges, or graduates from a high school or academy, must furnish a certificate of graduation from the institution attended; (2) applicants not graduates as above, must furnish a certificate, made upon a blank form provided by this Board, duly attested, showing that their academic education is substantially the same as the course of instruction in the public high and manual training schools of this State, or what this Board may consider as meeting its requirements; (3) candidates

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.
(SEE PAGE 8.)

New Jersey

REGISTER AND DIRECTORY.

New Jersey

1263

unable to furnish an academic certificate may take a special examination before State Superintendent of Public Instruction for New Jersey, whose certificate is accepted by this Board.

4. Medical Education.—Candidates must have received a diploma conferring the degree of doctor of medicine from some legally incorporated medical college (which in the opinion of this Board was in good standing at the time of issuing said diploma) in the United States, or a diploma or license conferring the full right to practice all the branches of medicine and surgery in some foreign country, and have also studied medicine four years, including three courses of lectures in different years in some legally incorporated American or foreign medical college or colleges prior to the granting of said diploma or foreign license: provided, however, that two courses of medical lectures, both of which shall be either begun or completed within the same calendar year, shall not be considered to satisfy the above requirements. Graduates of foreign institutions must file, with their applications, a certified copy, with translation, of their academic and medical diplomas, made by and under the seal of their respective consuls general, showing that applicant possesses the full right to practice medicine in all its branches in the country in which his diploma was issued, to which applicant must make affidavit that he is the person named therein.

*Exemption.—Evidence of one year's service as a member of the resident medical staff of any legally incorporated, charitable or municipal hospital or asylum, or of five or more years of reputable practice of medicine and surgery, may be accepted as equivalent to one year's study of medicine and surgery. A certificate of exemption, duly attested, must be filed with the application when required.

5. Date and Place of Examination.—The regular examinations of the Board are held in the State House at Trenton, on the third Tuesday and Wednesday in June and September. Application for the proper blank form for the June examination should be made early in May, and for the September examination in the latter part of July.

6. Application for Examination.—Candidates for examination should apply to the Secretary of this Board for a blank form of application which must be filled out in accordance with the printed instructions on the blank; bear the seal of the medical institution from which the applicant was graduated, and be returned to the Secretary for approval and filing, with a certificate of academic education and a certified check, signed by or payable to the order of the applicant, or a postal money order, for \$25, the regular examination fee, at least ten days before the date of the examination. After the examination, the application forms, with examination questions, papers, averages and academic certificates, will be filed permanently in the state library at Trenton. Neither academic nor medical diplomas should be sent to the Secretary unless requested. The fee will be returned to candidates failing to pass the examination.

7. Subjects of Examination.—All examinations shall be written in the English language, and the questions shall be, except in materia medica and therapeutics, such as can be answered in common by all schools of practice. If the applicant intends to practice homoeopathy or eclecticism, the members of said Board of those schools respectively shall examine said applicant in the materia medica and therapeutics of the school in which such applicant intends to practice; the examinations shall be in the following subjects, namely: (Sec. 1) materia medica and therapeutics, (Sec. 2) obstetrics and gynecology, (Sec. 3) practice of medicine, including diseases of the skin, nose and throat, (Sec. 4) surgery, including surgical anatomy and diseases of the eye, ear and genito-urinary organs, (Sec. 5) anatomy, (Sec. 6) physiology, (Sec. 7) chemistry, (Sec. 8) histology, pathology and bacteriology, (Sec. 9) hygiene and medical jurisprudence. Two hours are given to each section, in which ten questions are submitted. A general average of 75 per cent. must be attained.

8. Endorsement of Other State Licenses.—The license of any State Board of Medical Examiners in the United States will be endorsed by this Board, in lieu of an examination, provided: First, that the candidate for endorsement shall present satisfactory evidence of having the academic and medical education required by this Board, and second, that the license presented for endorsement shall have been issued after a State examination of the same grade and kind as that required by this Board. The endorsement of a college diploma is not accepted in lieu of an examination. Blanks for endorsement must be obtained from the Secretary.

9. Temporary License.—A temporary license may be granted to a legally qualified physician of another State to take charge of the practice of a legally qualified physician of this State, temporarily, during the latter's absence from this State, upon written request on the blank form of this Board and the payment of the regular fee of \$2. This license covers a period of not less than two weeks nor more than four months. A temporary license will not be granted under any other conditions.

10. All persons commencing the practice of medicine or surgery, in any of their branches, or of midwifery, in New Jersey, must obtain a license from this Board, either through examination or endorsement, which license, or a certified copy thereof, must be filed with the clerk of the county in which the applicant intends to practice. Applicants removing from one county to another must file a certified copy of their license with the clerk of the county to which they remove; duplicate certified copies may be obtained from the Secretary of this Board, by forwarding the original license with the fee of \$2.

Applicants, whether for examination or endorsement, must not begin the practice of medicine in this State until they have received a certificate of license from this Board, and have duly filed a copy of the same.

All communications should be addressed to the Secretary, Camden, N. J.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

"The Salt Breath of the Sea Brings Health."

N ATLANTIC CITY

We have not only Salt Air but a Sanatorium in which Sea Water is used in the best, most modern and scientific apparatus by skilled attendants and under medical direction.

Let us tell you about it:

We have made a study of Sea Water scientifically administered, and for some months we have had in preparation the Treatment Rooms and apparatus for our new Sanatorium. These rooms have been finished in White Marble, Tile and Porcelain Enamel, and are most attractive.

Hydriatic Apparatus of new design—the most complete in America—has been installed, enabling a wide range in the methods of application of Nature's greatest gift—Water, and in the regulation, variation and control of Water Treatments.

The value of Sea Water as a promoter of Health and for remedial purposes has long been recognized. The lack of proper means for its rational employment has been the only cause of its limited use.

We have our own pumping plant; water being drawn direct from the ocean. Whether it be a plain bath of Sea Water, an Electric or Chemic Bath, Needle or Charcot Douche, Spout Baths, Variable Temperature Baths, Sitz, Schott's or Nauheim Effervescing Carbonated Baths, we are prepared to give them all. Also treatments of Massage, Rubs with Sea-Salt of our own preparation; Static, Faradic, Galvanic, Sinusoidal, Hot Air, and Ozone Treatments.

Years of experience and special devotion to this character of treatments enables us to relieve sufferers from Dyspepsia and Nervous Troubles in their varied forms, Rheumatism, Anæmia, Valvular and Functional Heart affections and Insomnia. Those who lack tone and are debilitated from any of a great variety of causes will find, in modern Hydrotherapeutic applications, a remedy that is grateful, pleasant—even luxurious. These are Nature's remedies working in harmony with Nature's laws. Our leaflet on Hydrotherapy sent upon request.

ATLANTIC CITY
A Natural Health Resort.

GALEN HALL
A Sanatorium—A Hotel.

JUST A WORD FURTHER: Persons to whom the far South is enervating find the tonic effect of our air most beneficial, while our well-equipped house provides every comfort to make a winter in Atlantic City pleasant as well as beneficial. We not only provide a diet and the attentions suited to the needs of convalescents, but also a liberal table and good service, fine rooms and handsome furnishings. Many guests are in no sense patients; but are hotel guests who appreciate the comfort, rest and quiet the house affords.

Many **features** no other house offers.

Let us send you a Booklet telling the story more fully.

F. L. YOUNG,
General Manager.

BOVININE For CONVALESCENTS, PUNY INFANTS and CHILDREN. The Bovine Co., 75 W. Houston, N. Y. City.

New Jersey

REGISTER AND DIRECTORY.

New Jersey

1267

CHESTNUT AVENUE SANITARIUM.

318 Chestnut Ave., TRENTON, N. J.

The oldest and most successful institution in New Jersey for the treatment of the

Liquor and Morphine Habits, also, Mild Mental Disorders

OUR CLAIM.

OUR TREATMENT is an improvement over all other treatments for the **Liquor and Morphine Habits**.

There has never been a case treated by us where the mind, physical condition, sight or hearing has been affected in the least, and we guarantee that our treatment builds up the mental and physical condition, whether impaired by excessive use of

liquors or drugs, or from other causes.

Our former patients are our best advertisements.

Liquor is furnished to the patient so long as he has any desire for it, and until he refuses it of his own accord.

THE TREATMENT has long since passed the experimental stage. No case is hopeless. The treatment is purely vegetable—no gold being used.

Send for elaborate prospectus for **references** from parties who have never been in need of a treatment, but who are deeply interested in the good work we have done and are doing in uplifting the fallen through liquor, and also for **testimonials** from former patients, treated from three to seven years.

DR. N. B. OLIPHANT,
Medical Director.
